DETAILED ACTION

The amendment filed on 01 November 2004 has been entered.

Claim Objections

Reference characters corresponding to elements recited in the detailed description of the drawings and used in conjunction with the recitation of the same element or group of elements in the claims should be enclosed within parentheses so as to avoid confusion with other numbers or characters which may appear in the claims. See MPEP § 608.01(m).

Regarding independent claim 2, the prior art of record neither shows nor suggest a light emitting material containing a polymer, the light emitting layer is formed using a ribbon, which is used for the thermal transfer or sublimation method, supporting light emitting materials containing the material containing the polymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
